SUMMARY

Full Stack Developer in IDF Unit 9900, building and maintaining operational web systems in production. Delivers features end-to-end: Node.js and Express services over MongoDB, SQL and S3, and the React interfaces on top of them. Focused on performance, efficient data flows and production reliability. **Available from December 2026.**

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL
Backend: Node.js, Express, REST APIs
Frontend: React, Redux Toolkit, HTML, CSS
Data & Storage: MongoDB, SQL, Oracle, AWS S3
Maps & Visualization: Mapbox GL, Leaflet, OpenLayers
Tools & Infrastructure: Git, GitLab, Docker, Kubernetes, OpenShift
Familiar with: FastAPI, ArcSDE

EXPERIENCE

Full Stack Developer — IDF Unit 9900 *Jan 2025 – Present*

- Developed and maintained operational web systems using React, TypeScript, Node.js, Express and MongoDB.
- Built information management and tagging workflows, including interactive interfaces for organizing and visualizing complex data.
- Improved application performance by optimizing data loading strategies, reducing unnecessary API requests and implementing on-demand data fetching.
- Designed and optimized data models using MongoDB and SQL based on system requirements and query performance.
- Implemented storage solutions using S3 for large files, historical data and backup management.
- Created backend services and REST APIs, and resolved production issues across frontend, backend and data layers.
- Worked with Docker, OpenShift and Git workflows in a production environment.

PROJECTS

Global Terrorism Analytics Platform — Interactive dashboards over large datasets, powered by MongoDB aggregation pipelines. *Node.js, React, MongoDB*

AttendancePro — Employee and manager dashboards with role-based access control. *React, Node.js, REST API*

EDUCATION & TRAINING

Full Stack Development Course — IDF Unit 8200 *Jun 2024 – Dec 2024*

Six-month intensive program: Node.js, Express, React, TypeScript, MongoDB, SQL, OOP (C#), Docker and Kubernetes.

KodCode — Pre-Military Technology Program *Dec 2023 – Jun 2024*

Python fundamentals, algorithms and data structures.

Practical Software Engineering (Handesai) — The College of Management

LANGUAGES

Hebrew — Native **English** — Professional Working Proficiency
